EDUCATION

Graphic Era Hill University.

Master of Computer Applications. - CGPA - 8.0

Aug-2022 – July-2024

Dehradun, Uttarakhand

I.P. (P.G.) College.

Bachelor of Computer Applications - Percentage - 67%

Aug-2019 – July-2022

Bulandshahr, Uttar Pradesh

COURSEWORK

- OOPS Concept
- Software Engineering
- Database Management System (DBMS)
- Data Structures & Algorithms
- Operating Systems
- Web Development

INTERNSHIPS

Webpristine Technology (Noida Sector-63)

01-June-2024 – 30-Nov-2024

Front-End Developer

- Developed responsive web applications using HTML, CSS, JavaScript, and Bootstrap on live projects.
- Designed UI/UX elements using Figma and created interactive components with Canvas.
- Ensured mobile-friendly designs and cross-browser compatibility.

Codsoft

Aug 2023 – Sep 2023

Java Programming Intern

- Developed and implemented Java-based solutions for project requirements.
- Applied SQL for effective management and querying of relational databases.
- Demonstrated strong problem-solving skills and adaptability in a fast-paced development environment.

PROJECTS

ATM System 🔗 | Java, Swing, AWT JDBC, SQL

Aug-2023

- Developed a comprehensive ATM System using Java, Swing, and AWT for the user interface.
- Utilized JDBC to establish a secure connection with the SQL database.
- Implemented features such as cash withdrawal, balance inquiry, and fund transfer.
- Conducted rigorous testing to ensure the system's robustness and reliability.
- IDE - **Eclipse**.

Hotel Management System 🔗 | Java, Swing, AWT JDBC, SQL

Jan 2024

- Developed an extensive Hotel Management System using Java and Swing for the user interface.
- Implemented features such as room booking, check-in/check-out, and customer information management.
- Integrated a secure database connection using JDBC and SQL for storing and retrieving data.
- Conducted thorough testing to ensure system functionality and user satisfaction.
- IDE - **Eclipse**.

Guess The Number Game 🔗 | Java, Swing, AWT

Feb 2024

- Developed an engaging Guess the Number game using Java, featuring a Swing-based.
- Implemented dynamic features to enhance user interaction and engagement.
- Incorporated error handling mechanisms to ensure a smooth user experience.
- Utilized AWT for creating windows, buttons, text fields, and other UI components.
- IDE - **Eclipse**.

TECHNICAL SKILLS

Languages: Java, JDBC, SQL, HTML, CSS, JavaScript, J-Query, Bootstrap.

Developer Tools: VS Code, Eclipse, GitHub, Figma, Canvas

Soft Skills: Leadership, Problem-Solving, Analytical Skills, Quick Learner, Highly Collaborative

CERTIFICATIONS

- Fundamentals of Java Programming - Coursera
- The Complete SQL Bootcamp - Udemy
